

INDIANA CRIMINAL JUSTICE INSTITUTE

COMMUNITY OUTREACH EFFORTS

December 2006

December 20, 2006 — ICJI Staff and Marion County Superior Court

The purpose of the meeting was so ICJI staff could learn more about the Marion County Superior Court's "Model Court" and its push to address disproportionality. Since ICJI is currently collecting data from the QUEST data system in regards to juvenile justice's nine key points which are: juvenile arrests, referral to juvenile court, cases diverted, cases involving secure detention, cases petitioned, cases resulting in delinquency findings, cases resulting in probation placement, cases involving correctional facilities, and cases transferred to adult court it was imperative that work put forth by the Courts was not similar to what was already being done. The two entities will begin working together to address the issue together enhancing one another's findings. The Courts will have more of a child welfare depth and specialty area than what is currently being completed by ICJI.

Please note additional outreach efforts had to be postponed as a result of ICJI grant awards being priority.
